CLARIFICATIONS

1. **Eligible Commissions, Fees**

Production credit (for commissions) will be based on eligible commissions received during 2023. Credit may include either earned or advanced (annualized) commissions or both. Advanced (annualized) or earned commissions must be paid to the applicant in 2023 to be eligible for MDRT credit. Please note:

- Commissions paid on a levelized basis may be reported using the present value of up to the first five years' commission discounted at 10% per year, not to exceed 55% of first-year premium.
- Annualized commissions may be reported for credit if paid, but any chargeback of annualized commissions in a subsequent production year will result in a reduction of that year's production credit.
- If commissions are paid as earned, a policy effective in 2022 may result in production credit for 2023. The policy must be in force on December 31, 2022, but is not required to be in force as of December 31, 2023.
- Commission credit for pensions is based on the product used to fund the pension (life insurance, annuities, mutual funds, etc.).
- Commissions that are part of a deferred compensation program may be claimed up front for MDRT credit, provided they are not claimed again in later years.
- Life insurance policies that exceed the annual premium or target premium are eligible for credit. First-year commission credit may be given in the Risk-Protection category for the commission paid on the amount up to the annual/target premium. If the annual/target premium is exceeded,

- (sometimes referred to as a “top up”) commission credit may be given in the Risk-Protection category for the commission paid on the amount that exceeded the annual/target premium.
- g) Override commissions, training allowances, bonuses and other sales or expense allowances do not qualify under the commission/premium method.
 - h) Fees paid for the placement of a product are eligible for credit toward the commission requirement, as are asset management fees for mutual funds and wrap/asset management accounts. The type of product placed determines the type of credit the product receives.
 - i) Financial Planning Fees/Fees for Advice are eligible for Other Product credit for the net fee paid to the agent/advisor.
 - j) Group health insurance commissions are eligible in the first year of the policy only. Additions to the group policy in subsequent years are not eligible for credit.
 - k) Single premium and/or short-term endowment commissions are only eligible in the first year of the policy. Short-term endowment riders (max 15 years) to life insurance policies are eligible for 100% of first-year commissions in the Risk-Protection category.
 - l) Long-term endowment commissions are only eligible in the first year of the policy. Long-term endowment riders (16 years or more) to life insurance policies are eligible for 100% of first-year commission in the Risk-Protection category.

2. Eligible Premium

Production credit (for premium) will be based on eligible premium paid or new money invested during 2023. Please note:

- a) If commissions are paid as earned, premium credit should be given only for the amount of premium actually received during the production year.
- b) If commissions are annualized, the premium credit should also be annualized. Any chargeback of annualized commissions should also result in a reduction of that year's premium credit.
- c) A policy that becomes effective in 2022 may result in production credit for the amount of premium paid or new money invested during 2023.
- d) Life insurance policies that exceed the annual premium or target premium are eligible for credit. First-year premium credit may be given in the Risk-Protection category up to the amount of the annual/target premium. If the annual/target premium is exceeded, (sometimes referred to as a “top up”) premium credit may be given in the Risk-Protection category for 6% of the amount that exceeded the annual/target premium.
- e) Financial Planning Fees/Fees for Advice are eligible for Other Product credit for the gross fee paid to the company, broker-dealer or individual agent/advisor.
- f) Group health insurance premium is eligible for credit in the first year of the policy only. Additions to the group policy in subsequent years are not eligible for credit.
- g) Single premium and/or short-term endowment premium is only eligible in the first year of the policy. Short-term endowment riders (max 15 years) to life insurance policies are eligible for 6% of first-year premium credit in the Risk-Protection category.
- h) Long-term endowment premium is only eligible in the first year of the policy. Long-term endowment riders (16 or more years) to life insurance policies are eligible for 100% of first-year premium credit in the Risk-Protection category.
- i) Premium credit for pensions is based on the product used to fund the pension (life insurance, annuities, mutual funds, etc.).

3. Replacements

- a) Credit for individual life insurance policies may be claimed only for the amount of first-year commissions or premium on the new policy that exceeds the first-year commissions or premium for the policy being replaced. If the amount is not known, then the amount of commissions being replaced shall be calculated by multiplying the current commission times the appropriate premium for the policy being replaced. Premium credit can be determined by subtracting the replaced premium from the new premium.

- b) Conversion of a permanent product to a permanent product is to be treated as a replacement for MDRT purposes. This applies only to replacement of individual life insurance policies.

4. **Definitions and Interpretations**

a) **Business Paid for and Underwritten**

Business to be credited shall be paid for during the MDRT Academy qualification period (January 1 through December 31). Business shall be considered to have been paid for as of the date when the coverage first became fully effective with home office approval from the standpoint of payment of the claim (regardless of company practice or the distance between home and field office). However, no credit shall be allowed until the home office has finally accepted the premium and also until the first-year commissions have been paid or credited to the agent's account without any right reserved to the insurance company to recover same, except in case of recall under the contestable provisions of the contract. On joint, partnership, corporate and/or brokerage business, MDRT credit shall be given for only that portion of the business on which the applicant has been compensated, either by first-year commission or the equivalent.

b) **Health Insurance**

Includes policies that relate to the health of the body. Dental, vision, etc., are eligible for credit. See Page 5 for specifics.

c) **Policy and Case Definitions**

A policy shall be defined as an individual contract covering one or more lives as contrasted with a group policy, a pension, profit-sharing trust or a salary savings plan. Under a qualified pension, profit-sharing trust or a salary savings plan, each individual policy shall count as one (1) policy for the purpose of computing total eligible policies. For purposes of production, an employer-sponsored group life plan, franchise life plan and group annuity plan and mutual fund transaction with one (1) investor shall be considered one (1) case regardless of the number of lives or funds involved.

d) **In Force Requirement**

Credited business shall include only business which has not been terminated on or before the last day of the MDRT Academy qualification period (December 31) except for business terminated by death or term conversion.

e) **Securities**

Includes stocks, bonds or other equities. See Page 5 for specifics.
